Studio Reformer®

MADE WITH CARE. OWNED WITH PRIDE.

balanced body®

Pilates changes lives. As an instructor you are deservedly proud of that and you should be equally proud of the equipment you own.

Handcrafted from Rock Maple, the Studio Reformer® is an elegant and beautiful piece of equipment. But it's not just gorgeous; it's a workhorse. No other Reformer performs better or lasts longer.

COMFORTABLE, ERGONOMIC, ADJUSTABLE

- Work in comfort with the frame height that's best for you: 14", 18" or 24"
- Create the look and feel of your studio with furniture-quality Strata® Rock Maple, Artisan Maple, or other custom exotic woods
- Enjoy the quietest, safest and longest carriage ride in the industry
- Make precise, non-slip adjustments with easy-to-adjust ropes and cleats
- Get safe, consistent resistance with long-lasting Balanced Body Signature Springs™
- TwistLock™ shoulder rests let you adjust or remove shoulder rests quickly with no need for tethered pins. Secure and quiet!

FOOTBAR & SPRINGBAR CHOICES THAT FIT YOUR STYLE

The footbar and springbar system you choose depends on how you teach. Adjustability is crucial and the Studio Reformer offers several options:

Revo Adjustment System™
Easiest and quickest adjustment on the market. Works like a car seat - just lift the springbar lever and slide the carriage until it clicks into the next ergonomic position – even if you're on the carriage.

Classic Footbar / No-Roll Springbar
Have a more traditional Pilates background? This will feel just like the footbar you trained on. And the patented No-Roll Springbar doesn't roll when the springs are disconnected.

Infinity Footbar® / Choice of Springbars
Great for working with varying body heights (like children), because it adjusts along the entire frame length. Combine it with the Revo Springbar for the most precise system available, or choose the more traditional No-Roll Springbar.

Beautiful. Durable. Dynamic.

An investment in good health that will last a lifetime.

INCLUDED AT NO ADDITIONAL CHARGE

» Your choice of three frame heights: 14", 18" or 24"
» Sitting box and cotton foot strap
» Neoprene® handles
